Tiered Loyalty Program

Tiered Loyalty Program Features

| What Will You Have? | Descriptions |
|---|--|
| POPG Token Wallet & Saving Functionality | A secure place to hold and save your POPG tokens, earning a rebate annually based on the amount you lock. The rebate is distributed daily and can be redeemed for entertainment services. UAT likely mirrors this functionality. |
| Tiered VIP Savings System | Five VIP tiers that provide increasing rebates—up to 14% annual rebate—depending on the tier you qualify for through saved POPG tokens. |
| Rewards Redemption for Entertainment | Ability to redeem accumulated POPG rebated tokens for entertainment services like streaming subscriptions (e.g., Netflix, Spotify), gaming, and more. |
| Gift Card or Service Redemption Portal | A redemption interface—possibly accessed via live chat or directly within the wallet—to claim gift cards or service credits (e.g., free Spotify Premium month). |
| Information on Ecosystem Participation | Explanation of the POPG ecosystem pillars—POPG.VIP (VIP rewards), and POP.LIVE (premium events)—highlighting where the wallet fits within the broader Web3 entertainment realm. |
| Token Utility & Ecosystem Access | POPG tokens serve as utility tokens across the ecosystem. Holding and locking them within the wallet grants you access to services, redemptions, and platform participation. |

Tiered Loyalty Program Features

| What Will You Have? | Descriptions |
|--|--|
| Transparency & Business Credentials | Clear disclosure of the legal entities behind POPG—Trivisionary DMCC (UAE) as technology provider, and World Makers Group Inc. (Panama) as token issuer—supporting trust in the wallet's legitimacy. |
| Policy Compliance & Legal Considerations | Embedded links to Terms of Use, Privacy Policy, and compliance with disclosures such as token volatility and digital asset risks. |
| Buy, Deposit & Withdraw Options | The UAT wallet interface includes clear actions for Buy, Deposit, and Withdraw, suggesting that users can easily purchase POPG tokens (likely via integrated exchange/payment), deposit pre-owned tokens, and withdraw them from the wallet. |
| Save & Redeem Functions | Obvious Save and Redeem buttons indicate core functionality: locking POPG to earn rebates, then redeeming those rebates in entertainment services or redeemable tokens. |
| Account Management & Dashboard | The labels Dashboard, Profile, Help Center, along with options to Log In / Register, reveal the presence of an account management interface. Users gain access to personalized views of activities, support, and profile actions. |
| Real-Time Token Valuation & Merchant Status | A live display of "1 \$POPG = 0.051 USD" implies dynamic valuation (though placeholder in UAT), while the note "There aren't any merchants yet" indicates UAT's readiness to list redeemable services in future. |
