60-100

Our Founding Story

SparkMinds is a Software Development Outsourcing firm founded in 2021. Having started our business by implementing Blockchain projects, our honor is to having the success of several multimillion-dollar Crypto Exchange projects. On the upswing, SparkMinds has expanded our labor force and provide technology services in many sectors, such as banking systems, account integration, fintech mobile apps, enterprise financial software, wallet applications, and secure data sharing... all over the world

SPARKMINDS

SERVICES

Which Solutions We Can Deliver

Manual Testing

The person running the test, in particular, will be in charge of ensuring that the program or software under evaluation has all of its needed components.

Web Automation Testing

Our experts develop and execute automated test scripts to validate your web application's functionality, compatibility, and responsiveness across various browsers and platforms

Mobile Automation Testing

Our skilled testers design and execute automated test scripts to verify functionality, performance, and compatibility, enabling you to deliver high-quality mobile apps to your users.

Performance Testing

Our performance testing experts simulate real-world scenarios, measure response times, analyze resource utilization, and identify potential bottlenecks

User Experience Testing

Our experienced testers analyze user interactions, navigation flows, and interface design to ensure an intuitive and engaging user experience, thereby maximizing user adoption and retention.

Security Testing

A combination of automated tools and manual testing, we thoroughly evaluate an application's security controls, authentication mechanisms, data encryption, access controls, and more.

why you should choose us

SPARKMINDS
